

AVIMARK 18.22.1 RELEASE NOTES

WHAT'S NEW

Program security has been increased requiring a password be entered to access the AVImark program.

- ★ In 18.22.1 there must be a password setup in AVImark to access the program. If there is not a password setup in AVImark after updating, please contact AVImark Technical Support at **877-838-9273** for assistance.

New estimate enhancements allow users to lock Patient Estimates once the client has signed for the services/items and no more edits are needed. For a complete guide on how to lock estimates, click on the link provided here: [Locking Estimates](#).

- ★ Add alert if clinic clicks the lock button.
- ★ Add locking functionality.
- ★ Add security option for locking estimates.
- ★ Lock estimate utility created so clinics can mass lock their active patient estimates after updating.
- ★ Estimate tab in CID displays locked status (L).
- ★ Header shows locked in Change Patient Estimate window.
- ★ Turn Estimates red on the CID Estimate tab.
